THE INDIGENOUS AUSTRALIANS' HEALTH PROGRAMME

FUNDING AGREEMENT UPDATE – THE PROGRESS AND FUTURE

Tessa Pascoe

A/g State Manager

Health Grants and Network Queensland

Australian Government Department of Health

1 May 2018

Extension of IAHP funding

Continued IAHP funding in 2018-19 for:

- Primary Health Care and child and maternal health activities
- Tackling Indigenous Smoking (TIS) will also be extended for those organisations currently in receipt of TIS grants

Once Funding Agreement is executed:

- requirement for organisations to submit a 2018-19 Activity Work Plan and Budget

Funding arrangements from 1 July 2018

Streamlining Government Grants Administration

New Standard Grant Agreement

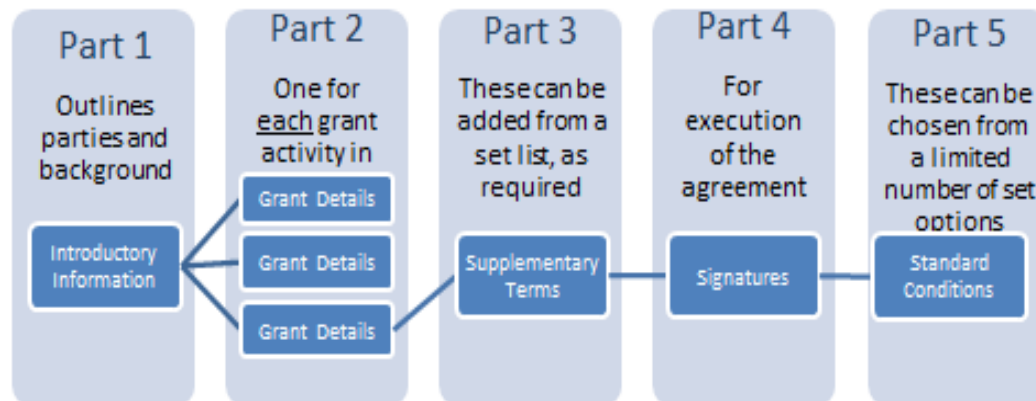

Community Grants Hub

New Standard Grant Agreement Template

- More streamlined than previous funding agreements
- Conditions remain consistent with the old agreement where possible
- Different structure to the old funding agreement

New Standard Grant Agreement

Community Grants Hub

Community Grants Hub

Most Health grants to be transferred from mid-2018 to Hub in Department of Social Services

Most Health State Office grant officers to transfer to Hub from 2 July 2018

Changes are administrative: program activities and objectives remain unchanged

Funding Model for Indigenous PHC services under IAHP

Overview of the Funding Model

The proposed model is capitation-based with two tiers of funding:

1. **Access funding**—based on a proxy for enrolment which is calculated from reported Clients and Episodes of Care for each service provider

2. **Top-up equity funding**—which is calculated on the basis of **need** (the socioeconomic status of the community which is closely related to health need), **dispersal** (remoteness) and **service provider capability**.
