How are you tested for COVID-19?
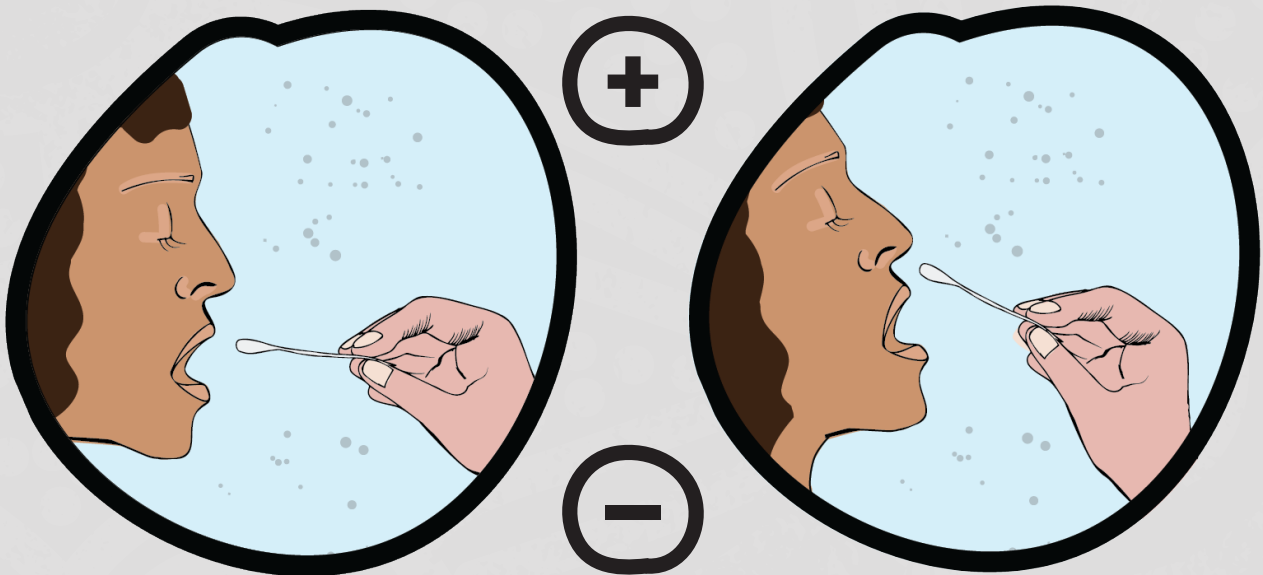

A COVID-19 test is done by collecting swabs from inside your nose or throat and/or mucous that has been coughed up.

After you have been tested you will need to self-isolate until you receive your results which might take a few days.

Where to get tested?

To find out where to get tested, contact your local health service or call the **National Coronavirus Health Information Line** on **1800 020 080**. Open 24 hours a day, 7 days a week.
